Call Pathfinder Today

Come Join the Fun at Pathfinder's Summer Enrichment Program

Children ages 9-13 may join the fun of learning about careers and enjoying sports, games and crafts in a supervised and modern program. Choose 1, 2, 3, or all 4 weeks!

Monday—Friday

9 a.m. to noon—Interest area with carefully supervised project-based activities designed especially for this age level. A mid-morning snack is served.

Children must wear closed-toed shoes or sneakers

12 to 12:30 p.m.—A nutritious and delicious lunch is served.

12:30 to 1:35—Group sports activities or games including soccer and kickball.

1:45 p.m. to 3:00 p.m.—Sports activities continued with the option of varied crafting activities.

3:00 p.m.—Parents pick-up children at Pathfinder. **NO LATE PICK-UPS**

Cost: One (1) week—\$175

Each additional week—\$165

Please include materials fee as needed.

Each additional child from the same family is discounted \$10 per week.

**Registration is not complete until
payment is received.**

INTEREST AREAS

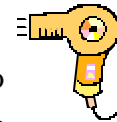

CARPENTRY

Investigate the wonderful world of woodworking. Produce an interesting project using the latest technology and equipment.

Materials fee \$20

COSMETOLOGY

Learn while you gain the skills to enhance your appearance. Students will be introduced to techniques for personal care of hair, skin, and nails as well as the proper use of blow dryers, curling irons, rollers, and manicuring tools.

ELECTRONICS

Discover the exciting world of electronics from the inside out! Learn about how the electrical parts work in circuits, how to read and understand electronic diagrams, and how to solder components together as you build neat gadgets including a mini robot that you get to take home.

Materials fee \$20

INTRO TO PHOTOGRAPHY AND WEBPAGE DESIGN

Includes an introduction to Computer and Internet basics. Students will learn how to scan images, use digital photography and manipulate graphics with the use of Adobe Photoshop. Graphic images will be used in common Microsoft Office documents and they will create a simple family webpage. Please bring photos of family, friends and home.

AUTOMOTIVE

Learn basic maintenance and service skills plus an introduction to the internal combustion engine through hands-on experiences with small engines.

CULINARY ARTS

Try the fine art of food preparation. Learn to make home-style meals, desserts, and breads. Everything made will be taken home for the entire family to enjoy.

Materials fee \$20

ENVIRONMENTAL EXPLORERS

Don't just sit there! Let's get busy and explore our environment: cruising down a river, hiking trails, visiting a butterfly habitat and finding science in the world around us. Take a field trip everyday: Quabbin Reservoir, Magic Wings, The Zoo at Forest Park, Hitchcock Trails, and Northfield Mountain.

Materials fee \$20

INTRO TO VEX ROBOTICS

Students will design and build simple robots using the Vex robotics system. Various wheels, metal parts, nuts, bolts, motors, and sensors will be available. The robot will be controlled autonomously and with radio control (similar to a remote control car).
